

Date: 16/02/17, 17/02/17, 18/02/17

Venue: Chembur Naka- Siddarth Colony.

My name is NeelamVarma from S.Y.D.T.Ed. We in a group made a survey at Chembur Naka Siddarth Colony. We got a great experience. I did the survey of 7houses, I came to know the problems faced by the students of B.M.C schools.

The grandparents of the students went to schools but could not complete their education due to various reasons like health problem, financial problem, some said that parents did not sent because of schools are situated at a far distance, travelling problem, some are not interested in studies and started working.

Some parents of the students went to school, some went but could not complete their 10th because, some started working and some got married at early age.

The students of B.M.C school face the problems like unclean water facilities, unhygienic mid-day meal, unclean toilets, no water in the toilets, doors of the toilets are broken. Some students have difficulty in maths subject. In std- 6, only one teacher teaches all the subjects. P.T.A meetings are conducted once in a year.
