

Today we visited 20 houses regarding the survey where we found that mostly parents were not educated and they were asking questions that "what will we get by answering all this questions? And whether we would get any facilities like washrooms." We also found a drop out because the school had till 7th std so she left school for 1 year. There was a family where the student's sibling was handicapped so he was not sent to school since 14 years.

There were many parents who didn't know their contact number as well as their address. Some families of 16 members were staying in a small room with only 1 loft.

There was a family who asked whether we would get building to stay. There were many complaints regarding the student's knowledge that even though there is good teaching in school pupils are not interested in learning. Today we visited 9 families of Subash Nagar as well as Venkateshwar Chawl in Dharavi where there were very less no. of students going to BMC schools and there were many families whose parents go to work, leaving their children alone outside the home and their room here and there.

There were a family where the student stays away from family for education. Many parents don't know their address well as well as their in-laws names. Students also are not aware of their grandparents name.
